17<sup>TH</sup>  
ANNUAL PRODUCTION SALE

RED ANGUS • BLACK ANGUS • SIMMENTAL • HYBRID  
OPEN HEIFERS • FIRST-CALF HEIFER PAIRS

SATURDAY, MARCH 9, 2024 • 1:00PM  
AT THE FARM • TABER, AB

As the late great Ian Tyson said “We made it through another on the Northern Range” and while the 2023 year has not been without its challenges it brought many exciting and promising moments to our farm and we truly believe it’s one of the most exciting years to be in the cattle business. With cattle prices holding strong and projected to go even higher it is the right time to be in the business of beef.

Being in the more... senior division... of the cattle industry it is promising to see the youth in our industry so engaged and wanting to get involved. We truly believe that our beef industry is in good hands and we have yet to see the highs of where things can go.

Speaking of the next generation, the most exciting thing to happen around the ranch this year was the arrival of our first grandchild. Becky and Chad welcomed Kesler James Lorenz to the world on May 16th and we have been doting on him ever since. His smile and laughter have been the best addition to this family and could melt anyone’s heart.

In June Doug and Chad traveled to Saskatoon to attend the Canadian Angus Convention while Becky and Grandma stayed at home with Kesler. During Convention Becky and Chad were recognized as the Canadian Angus Outstanding Young Breeders. This award is presented to young Angus breeders who showcase the bright future of our breed and the desire to stay involved and make a difference. We are extremely proud of Becky and Chad for their dedication to the breed and the years of hard work and the passion they have for this industry.

Later that month we also got to celebrate Stacey for a very different accomplishment. Cheryl went with her up to Banff to watch her run her third marathon. She did 42.2 Km through the hills and the rain. We still aren’t sure if that is dedication or just plain crazy but we are proud of her none the less.

In July we had the privilege of hosting a retirement party for our good friend Darla Machacek (the woman responsible for the delicious meal at the bull sale). Darla put her heart and soul into bettering the

lives of many students at St. Patrick’s Elementary School for almost 25 years and has definitely earned her retirement.

In our own attempt at retirement, we decided we should check out Texas in November, we drove down and back 7100km in 9 days (Doug’s old trucking habits are hard to kick) but did manage to stop long enough to visit some friends and see a couple sights as well.

December rolled us into the annual Medicine Hat Pen Show which is always our favourite for the opportunity to visit with so many customers and friends (and show off our Grandson!) It even ended with Red CD Hunter 35L being selected as the People’s Choice Bull Calf.

We look forward to welcoming you to our 17th Annual Production Sale at home inside the heated barn. We have a strong line up of heifer and cow bulls that will make great herd sires. All livestock will be on display behind the barn morning of the sale, the coffee and snacks will be on early to give you a great opportunity to view all the livestock. Lunch will start at noon with the live sale to commence at 1:00 PM.

Doug, Chad, Castlerock Marketing and the Perlich crew are available for phone in bids the day of the sale with live bidding on DLMS. Videos will be posted on cdlandandcattle.com and DLMS in late February. Give Doug a call any time to discuss your purchasing needs or to stop in and have a look at the animals.

With calves at an all time high it’s more important than ever to remember that when making your investment now **Quality Counts** when selling your calves in the fall.

*See you on sale day!*

Stacey & Neil and Becky & Chad*

## Welcome from Castlerock Marketing

It is great to be working with the good folks of CD Land and Cattle, a genuine commitment to bringing forth high quality genetics through their bulls has been a long standing effort. The bulls are bred to be a valuable tool with a focus on performance, overall soundness, hair, eye appeal and, best of all, making a female that is worthy of being retained for the cowherd.

With a strong eye for detail the Domolewski family works hard to bring the best genetics forward while being developed in a modest fashion to provide you, the customer, with cattle that will work for years down the road. You will notice that they often use their own genetics back in the herd, showing confidence in their genetics while amplifying the genetics that have proven to work.

Your experience at CD Land and Cattle will be a memorable one with the high quality cattle and hospitality that is second to none but, like the cattle business, has always been a people business. Feel welcome to contact ourselves at Castlerock Marketing regarding the offering as we would be pleased to assist you answer any questions you might have on the offering.

### SALE LOCATION: At the farm

1 mile East and 1/4 mile South of Taber, AB

Watch for signs!

### DELIVERY OPTIONS

**Leaving Bulls at the Farm:** If you are not prepared to take your bull home at sale time, we are more than happy to keep them on feed free of charge up till May 1st. We highly recommend bulls be insured by the purchaser if remaining at the farm as ownership transfers to the buyer at time of sale.

**Delivery of bulls:** We provide free trucking for the bulls up to a 200km radius, beyond that we will work with you to have your bull delivered.

**Delivery of Heifers:** Due to a very limited corral space we require the heifers to be removed as soon as possible. If they cannot be removed sale day, let us know and we will help you make arrangements.

### HEALTH & FERTILITY

We keep our cows on a year-round Crystalyx Mineral program to promote breeding on first cycle and to aid calves in holding a bloom in the fall when pastures begin to dry. Then calves are given Crystalyx mineral to aid them with minimum stress at weaning and to help going onto feed. The bulls have been treated August 18th with Pyramid FP5 + Presponse SQ, Ultrabac7/ Somubac, Vitamin AD3 Forte and Solmectin pour on. December 27th they received Multimin 90 and Clean UP II pour on. We bucket feed the bulls calves every day making them quiet and easy to handle. All bulls will be tested, fully guaranteed with scrotal measurements and weights available on sale day.

Doug and Cheryl Domolewski, of CD Land & Cattle integrate a complete herd health program strengthening the performance and sustainability of their livestock. The breeding herd receives yearly preventative 8-way clostridial, 5-way viral and scour pathogen vaccination focusing on the health and productivity of the cow-calf herd. At birth, calves receive an oral vitamin drench along with intranasal viral and bacterial pneumonia immunizations. At spring turn out and weaning, calves are vaccinated with a 5-way viral with Mannheimia Haemolytica along with a 7-way clostridial with Histophilus Somni. The years of attentive genetic selection has led to cattle that perform in our southern Alberta climate and markets. Returning and new buyers can bid with confidence finding a new herd, replacement heifer or heifer pair at CD Land & Cattle.

Francis Ivanics, 2021  
Carl Huvanaars, 2020  
Hecker Farms, 2019

## Expected Progeny Differences - EPDs

EPD's are one tool to help and try to predict each bull against its own contemporary group. A note to remember - EPD's PREDICT group average and offspring's performance, they DO NOT predict individual performance or weights. They are a value to help predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed. The EPD numbers will change as more data is collected and are never 100% accurate.

Look at the EPDs, but be sure to view actual birth and weaning weights and come look at the shape and size of the bull. We would like to discuss your needs on your operation, go over the bull and the history behind the bull and help you select the sire that will benefit your operation the greatest.

## Sale Terms & Conditions

**Terms:** Terms of the sale are cash or cheque and all settlements must be made on sale date. The right of the property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

**Disputes:** In case of disputes, bidding will be reopened between all parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**Announcements:** Errors or changes discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over printed matter in the catalogue.

**Certificate of Registry or Recordation:** A certificate of Registry or Recordation, where applicable, duly transferred will be furnished to the buyer for each animal after settlement has been made.

**Liability:** Perlich Bros Auction Market Ltd is acting as agent only in this sale and is not liable in any manner whatsoever for any representations made by the seller. The purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

We really admired Red Duralta 167 Momentum 11H and were very excited to AI a select group of cows to him after purchasing 10 straws of semen out of Red Roundup. This Momentum calf has surpassed all expectations. 8L has been a standout from day one, was easy to pick out all summer on grass, and has continued to be a favorite in the bull pen. Here is a bull built for performance with an October weaning weight of 1160. A true herd bull prospect.

*Maternal Sister: DUG 22K*

*Lot:* **2** **RED C.D. POWER PLAY 37L**

DUG 37L 2312420 27/01/2023

Red Wildman Kraken is a bull built for performance so it's no surprise the same performance, pounds, power and muscle are found in this first calf crop. Power Play 37L is no exception with style, muscle shape and power. Out of a very pretty and productive female, here is a bull with proven ability to grow and develop, weaning over 1100lbs and weighing 1385 in January.

The Princess 234F cow has done it again, producing a stand out in the sale order with herd bull character and look. This moderate, easy fleshing female has not only produced a bull that we retained and used, but also produced last year's lead off bull. Princess 234F has proven calving ease in her progeny ranking in the top 1% of the breed for calving ease and top 4% for birth weight. Explorer is a proven heifer bull with added muscle shape, look and performance.

Lot: **5** **RED C.D. MOSSY OAK 714L**

DUG 714L 2312403 06/01/2023

Red Six Mile Mossy Oak was a new addition to our AI program and his calves have done everything we hoped for. Mossy Oak is a unique combination of superior phenotype and body design with breed-leading calving ease and growth. Here is no exception to the Mossy Oak legacy and out of a hard working young Itza female. This calf is safe to use on heifers and will add performance and growth.

### RED C.D. BUSHMAN 19L

Sire: RED BCC GATOR 18E 1961898  
 RED RENAISSANCE HUNTER 2154343  
 RED BCC IDA 94F 2047100

Dam: RED CRSL PRIME TIME 1871361  
 RED C.D. SENSATION 30E 1974329  
 RED C.D. R R SENSATION 32'10 1547321

Out of phenotypically one of the most complete dams in our cowherd. The Sensation cow family has the reputation for being deep-bodied, easy-fleshing females creating a legacy of productive momma cows. Here is a performance bull with a strong maternal pedigree. Bushman is no exception to the rule - he has performance, and is a tall, lengthy calf that can get out and travel the miles.

### Lot: 17 RED C.D. RIDGE RUNNER 15L

DUG 15L 2312404 06/01/2023

A true heifer bull ranking in the top 9% for calving ease and top 15% for birth weight but with some added performance he tipped the scales at 920 at weaning time. With calving ease bread into the top and bottom side of the pedigree, with Red Renaissance Hunter's progeny having an average birth weight of 82lbs. Ridge Runner has the right build for a heifer bull.

**Shared Footnote for Lots 39 and 40**

A couple of smaller-frame, finer-boned bulls but still packing lots of performance. These two both weaned off at 950 pounds and as yearlings were within 35 pounds. If you're only looking for one bull either will work great on your ranch. If you need two bulls this is an awesome opportunity for consistency in your calf crop.

875	1267	9.5	1.6	63.4	82.2	20.9	3.8	

A great cow bull who weaned off at 900 pounds. His full sister from last year we are proud to retain within our herd.

With calf prices at an all time high, losing one at birth is a substantial loss, here is the sure fire way to prevent that. A very strong set of first-calf heifers is the perfect way for someone to start a herd or a solid addition to any commercial rancher. November 24th all heifers received ScourGuard and Solmectin Pour-On. December 20th the ScourGuard booster along with UltraChoice 8 and CattleMaster Gold FP5. These working sets of cattle will be an excellent return on your investment. The pairs will be sold by lot with the option of taking only 5.

### *Ben Penner First-Calf Heifers*

*Lot: 58* 5 SOLID BLACK ANGUS PAIRS

### *Cam Et Lynn Morris Open Heifers*

Cam & Lynn Morris are once again offering a top class of solid red replacement heifers. The Morris's invest wisely with pride in their herd sires and it pays off with the quality you will find in these two lots. There will be no disappointment in taking home these heifers to your ranch. Heifers were treated with First Defense and Inforce 3 at birth, 7-way with Som, Bovishield Gold and Inforce 3 booster at branding, 7-way with Som booster, Bovishield Gold booster and Ivomec at weaning. All heifers will be palpated before the sale and weights available at sale time.
