

Border Butte BULL SALE

VOLUME

24

AT THE RANCH, EAST OF COUTTS, AB | SALE TIME 1:30PM // 66 YEARLING BULLS

DECEMBER

15th

2025

Read the footnotes.

“Always read the footnotes, always check the background. Always see the dam.”

While the catalog always gets pieced together rarely does it happen from front to back. What your flipping through is a concoctions of months, hell years in the making. Believe me when I say this introduction started in July after moving a set of pairs with heifer calves in 1-4. Does it include anything from that day driving or riding? Nope not the way it was penned out anyway. Though it stems from that day and that set of cows we are tremendously happy with , it’s actually from this last couple weeks of writing footnotes, clipping and picturing a selection of the bull pen while realizing where it all started and how far the herd has evolved.

We realize someone had a hand in our molding and gave us their advice from which we learned to help start this venture, from our start up, to the insight we’ve developed throughout we hope it’s apparent Our decisions are not spur of the moment. It’s with writing this note post footnotes that our plan is apparent because while the footnotes seem quite repetitive to us it shows us we are accomplishing what we set out for. A balanced trait cow herd based on a strong maternal foundation that has the ability to put functional prolific daughters back in the herd while their bulls have all the power and performance to work in herds asking the same of their program.

So take the lessons given by those who have influenced you the most, ask the questions as it’s the best way to improve.

Always ask to see “the footnotes”.

Cindy, Dale & Roan Bosch

Border Brite
ANGUS

Welcome From Castlerock

The 24th Annual Border Butte bull sale preparations are rounding third base and headed for home on December 15th at the ranch! This isn't a seven game series, it's a lifetime of efforts where the preparation is always on the long game. Walk off home runs might make the front page news but in the real world of ranching consistency is the key to success. No miracles needed, hard work, attention to detail that is backed by the demand for the cattle to live up to their expectations. This family run outfit emerges from the clubhouse every morning in the quest to making their genetics better day in and day out. Nothing fancy, just old fashioned blood, sweat and tears is put towards making sure the cows are doing their job right which in turn makes the bulls on offer a group in which they can take great pride in!

If you know Dale, Cindy and Roan when you are investing in their genetics they take great pride with you being a happy, satisfied customer. Their path and direction has never changed as they strive to breed cattle with length, muscle, hair, performance carried by sound structure and overall balance. The expectation level in which the cattle are expected to deliver is there throughout the year, there is a magnifying glass on the cattle constantly. It has to be right!

The offering is exciting again for the fact of the consistency in their type and have that Border Butte look to them, enough said! Like Cindy says...ask to see the footnotes! Visit with Dale, Cindy or Roan ahead of time and let them know your needs and desires as they want the business to be right!

We at Castlerock have worked with Border Butte for a number of years and know the herd well, feel free to reach out if we can be of service in your selection process!
See you sale day!

See you sale day!

Shane Castle

Welcome From Perlich Bros.

The Perlich family and staff are thrilled to conduct the Border Butte Angus Bull sale this year at their ranch.

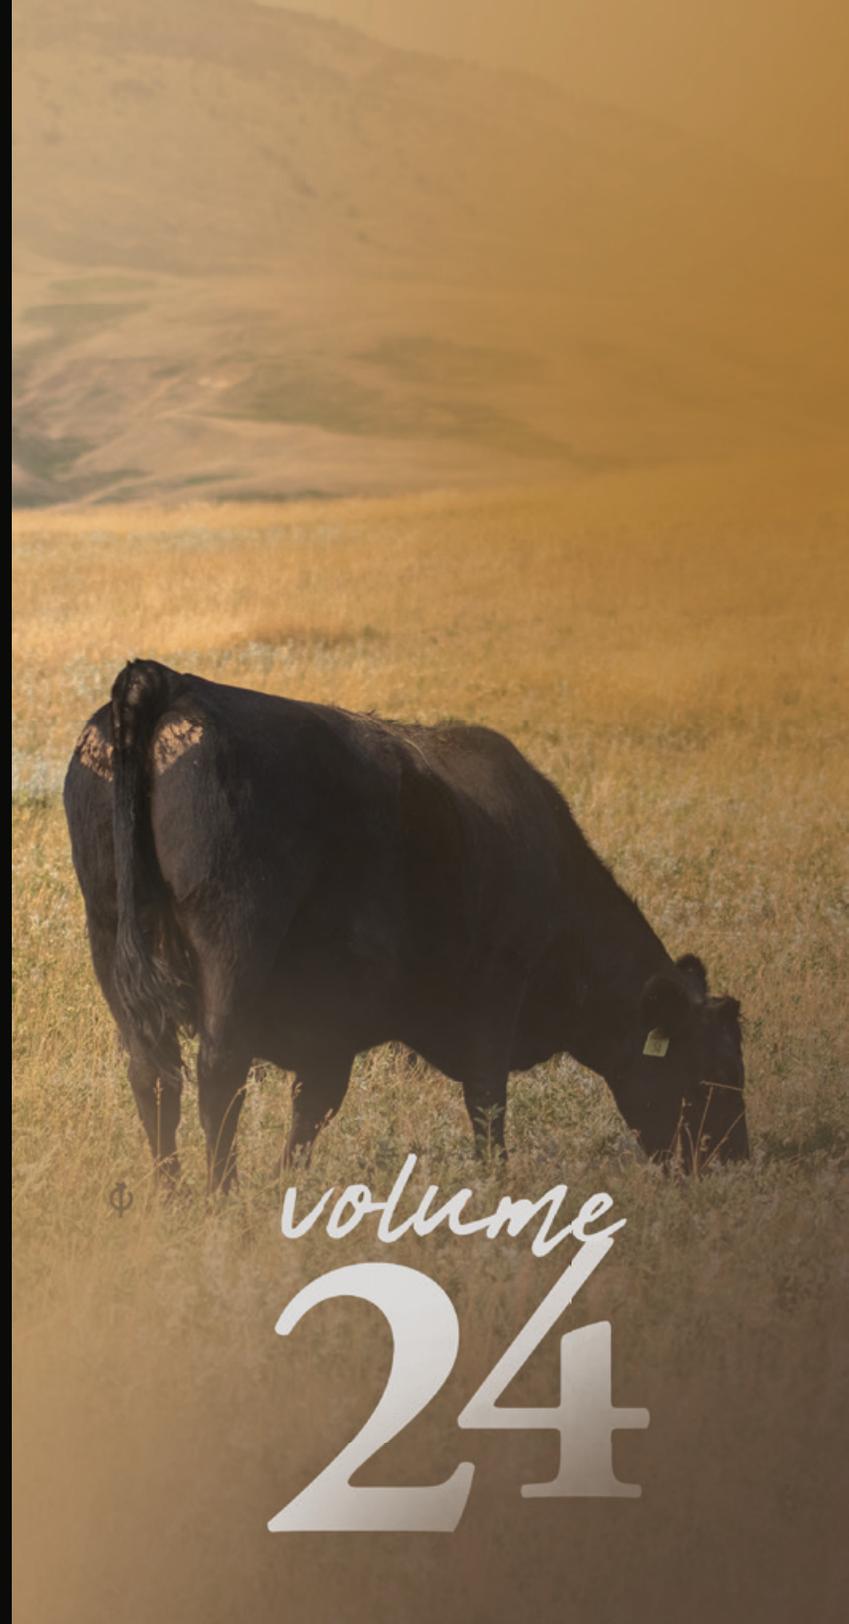

Dale, Cindy & Roan are meticulous when it comes to their Black Angus cattle operation. They strive for superior genetics and overall herd health.

Their hard work, ambition and passion for their cattle is evident in this year's line up of bulls. We have only had positive feedback from producers who purchased Border Butte bulls, they have a strong reputation for productivity, performance, good health & temperament. Bid with confidence, knowing you are putting quality genetics into your operation that will pay for years to come.

We look forward to working with Dale, Cindy & Roan this year to provide you with top quality bulls at this year's sale.

Respectfully,

Management and Staff, Perlich Bros Auction Market

Buyers Representatives

Tim Henline 403-647-8074

Tim Henline has been a longtime friend and great neighbor. Tim has for many years been the brander, trucker, sorter, and customer, so through the years has seen our herd develop. Over the years we have also been involved in some of the seasonal activities at the Henline Ranch and have seen the type of cattle they run and select. We asked Tim to be available before and on sale day to answer questions of anyone that has interest in the bulls and needs a familiar opinion.

Justin Leeson 403-593-8744

Many may know Justin as our Nephew from Hays, Ab, Judy and Brads son. Justin has been helping with seasonal activities since as long as I can remember. Starting when he had to abandon his little quad in a cattle move over 12 years ago. While he was too small to know back than he has grown a lot and has been paying attention to the genetics and the performance of calves over the last few. This became evident last year as Justin was one of the Phone men. He has a good eye and can recognize the attributes of a good one. He as well can give an honest second opinion to the bulls as he is the one we have out to run these bulls through for branding day, clipping day, video day and before sale clean up. He is no stranger to our pens and pastures that's for sure.

IMPORTANT WINTERING & DELIVERY INFORMATION

Yearling bulls will remain at Border Butte Bull Yard after sale day free of charge, until a reasonable delivery date is arranged after semen testing. Weather depending, semen test will be completed late February, early March. We will promptly inform the new owner if the bull passes or requires a retest, which if a retest is required Border Butte will be given the opportunity to prove a passing second test. If a second test fails the owner will have the choice of credit, reimbursement, or suitable replacement bull. Border Butte guarantees their bulls include sound footed, semen tested, the willingness to breed a female. If any problems arise it is to be brought to Border Buttes attention in a timely manner to be evaluated. Injuries occurring at the new owners, or neglect will not fall under the breeders' guarantee. Purchases are to be settled on the day of sale unless other arrangements have been made with Border Butte. Contact Dale Bosch 403-647-4392 if you are in need of any payment options.

SIGHT UNSEEN PURCHASES

If you wish to participate but are unable to attend the sale, please feel free to call us to take advantage of our 100% Satisfaction Guaranteed-“Sight Unseen Purchase Plan”.

INSURANCE AGENT

Larry Toner 306-834-7652

TERMS & CONDITIONS

All Bulls sell under the standard terms and Conditions set forth by the Canadian Angus Association.

GUARANTEE: calendar year bulls will return home and be semen tested and evaluated by a qualified vet. 2 year bulls have been semen tested and evaluated. Bulls that fail to be satisfactory breeders will be replaced or credit given on purchases or replacement from the seller. They should be returned to the consignor in good condition and properly cared for so they can be re-evaluated. Border Butte is responsible only to the purchase price of the bull in question. Each animal becomes the responsibility of the purchaser at the fall of the hammer.

INSURANCE: We recommend you insure your purchase as purchaser assumes responsibility at the fall of the hammer. An insurance agent will be available on Sale Day, Larry Toner 306-834-7652

HEALTH: Animals are from TB and Bangs free area. They are examined by a qualified veterinarian at semen testing time.

TERMS: Terms of sale are cash or cheque payable at par in Canadian Funds to Sale Clerk on sale day. No animal will be released without satisfactory settlement.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcement from the Stand at sale time and such correction shall take precedence over the printed matter in this catalogue.

SEMEN INTEREST: We reserve the right to draw semen on any catalogued bull at our expense, and buyers convenience.

Statements like this had us inquiring more "Staple in our lineup for feet, fleshing ability, and outstanding progeny!" FAIR-N-SQUARE is known for consistently producing stout, masculine sons and broody, soft-middled daughters with beautiful udders. On a tour of some South Dakota herds in December 2023 viewing multiple herds with the same results of using Fair-N-Square it was an absolute we needed to utilize this bull and we have all intentions of repeating after the results are in front of us. They'll catch your eye immediately.

A bull we have become so confident in and excited about with his 3rd set of calves on the way. When we took the plunge to buy Tahoe in 2023 we couldn't have any idea what we were going to get until his very small offering made it to sale day and breeding time. While he arrived late and we only got a small sample of progeny in 2024 we liked what we saw. Fast forward to this season and the overload of masculinity, paired with calving ease features, outstanding foot structure and overall eye appeal in his females. Backed by a maternal program at Wieseler's and a dam that has now been put into their embryo program. This bull's presence in the pasture and in his calves in this pen are undeniable with these calves being of light birth for that calving ease built right in. The rugged design of these calves will offer those top end steers while making his females the sought after kind.

Purchased in the spring of 2021, a calf who arguably carried the strongest hind quarter in the pen the day that we walked through. Possessing the absolutes that we require when we look to purchase a herd sire. His tidy, and different twist of pedigree enhanced the appeal. A tour through Dave Lamb's cow herd to view his Dam was a great visit and enabled us to appreciate a number of his paternal sisters and maternal relations to solidify that this bull in fact has the ability to add or improve many strengths to our program. With a number of retained daughters in this first year that have performed extremely well, and a set of bull calves that will not be missed and appreciated for the early maturity which possessing a lighter birth weight option.

Reckoning is extremely upheaded & clean fronted with cool neck extension! He possesses ultra flexible joints with desirable body depth, dimension and muscle shape! Hair quality is a BONUS too! If you haven't heard of his sire, Believe, is one of Canada's highly valuable sires of recent times. Reckoning is not only a bull to improve show quality, but is a great choice to improve herds of all types with his tremendous breed character, testicle shape, joint & foot quality, and overall excellent phenotype.

Roans purchase of a female from the Remital herd a few years ago. Generally yielding females but has added this guy to the bull pen this year. And while Ball has kept Roan busy this year so he couldn't write the footnote. The cow was busy putting in the efforts with this Traction son that will be noticed for his length and style. A female full of maternal sensations known to get the job done, from a herdsire that is easily credited for adding style and presence to any offspring.

Dam is a young producer here but has quickly solidified her spot by bringing another powerhouse to the pen this year. From his presence at the scale at weaning time to his strut in the picture pen. His performance just impresses on a weekly basis. This type are easy to watch grow on pasture and extremely satisfying as he changes and performs as he matures. He's going to be one that aims to please.

Dam is an ultra feminine, sound, correct daughter stemming back to Cedar Ridge. Known highly for his maternal strengths in the breed. She didn't shy away from sharing her phenotype with this calf. Than was before she was lost in early spring on grass. This calf had to pave his way from 4 months on with a little stealing here and there, and what you see today is the outlines of his very productive dam was capable of. He may not have had the same weaning weight as his Reckoning brothers but he is on the hustle to level up in the months to come by the looks of how he's progressing.

Late February calf. Little later after this second calver put out a whopper of a bull calf in her first at bat, that went to Cooperfield Farming last year. While a little younger this guy is putting up the same type and style as last years calf. He had that shape as early as early May where he was always a tour favorite. His dam will be here for the long haul upon these 2 first entries to the bull sale. She exudes femininity while boasting the shape that will produce herd bull power with ease while on a solid foot and has the type of udder you want for the entire herd.

Fair N Square was used for his fresh pedigree. Actual eyes on progeny made the implementation in the herd an exciting decision. With his offer of bone, stout big foot, length and overall power it was a quick made decision. This calf dam is a standout in the pasture and had a hand in our 2024 retained Rainmaker herd sire who's progeny will debut next year.

Where do you begin on a calf like this. Do you start at his 1082 lbs weaning weight after a dry summer on Moms milk alone. Or maybe his EPD profile that ranks him in the top 1% of the breed for Weaning, and Yearling Weights. Or do you point out his pedigree that boasts some of the best raised and used on this soil. Longevity runs deep alongside proven performance his sister has a top calf selling as lot 513 and grandam sired lot 224. You'll see yourself why it's hard to put words to paper on this powerhouse.

I avoided writing this foot note until the end as how do you follow up behind last year's high seller to Spicklers in North Dakota. Well you start by having a cow that shows up year after year with a genetic piece that will demand your attention consecutively. Breed her the same way for the same imposing results, and watch the magic happen. Rarely can you find a genetic piece that hits all the bases and he's such a result that sits at the top of the pen phenotypically. He's making a run for performance topper, and will rival any calf for the top watched list. Smooth as silk on the walk, stunning lines in the stop and a demeanor that will sway have you at first approach. Words really don't do him justice.

Tannerite as his Sire was an easy decision to enhance the maternal strengths on his dams pedigree. From her gorgeous udder to her feminine profile. We envisioned a female that would rival any front pasture kind. Our misfortune was it was a bull calf which can in turn be someone's fortune as the females produced will be a genetic masterpiece.

Such an outstand calf out of a first calver. Performance wise she outdid herself, keeping her condition while punching out this masterpiece. All muscle and shape. He boast an attractive shape and size while having an extremely masculine presence that exudes herd sire status. We expect a lot of our first calvers and the is great momma delivered in spades. While we didn't find Rise Above to fit what we consider calving ease approved, he did bring to the offering some hard muscled, quiet calves with a willingness to perform above expectations.

Can't go wrong when you stack a pedigree with calving ease sires that work continually in your program. Outside, Traction and now Outlier have proved themselves over the years and most recently to be in the top of our findings for that light start and proving to grow with the rest of them. at 79 lbs start this is exactly what we look for calving ease , with the ability to foster a calf that can make a statement as he crosses the scale at weaning time. and while he was just shy of 700 lbs at weaning he's not shy of catching all the looks in the sale pen.

This calf is the type that could be considered calving ease King! When you see Black Loch in the pedigree up this close, you know some thought went into the mating. A bull that will forever be labeled our calving ease specialist. But pair him with a "Tom- HMM ETF" daughter who has Density in her up close pedigree. You can prepare for these golden nuggets to come out easy and get up and go. You can see by this guy why his Marion dam is one of our highlight female lines here. Keep every female from this guy.

Calving ease deluxe. With 3 light birth and short gestation bulls in the calf's immediate pedigree, we see his advantage in following suite. Add in a splash of that maternal strengths from the Thunder bull in his dams pedigree you've created a calf to retain females from.

Dam is a sister to the powerful 421N calf in this sale. She followed suit, in showing up with this guy as her first addition to the bull pen. Ranking right up there with this very appealing calf from front to back, Showcasing the great cross up of the new Rise and Shine bull with Trust on his dams side for that added Jam.

A very unique cross with the Pedersen Jackson bull and the Thedford bull sold to Minburn Angus in 2024. Used lightly here, he's passed along the real look about him. That calving ease bull presence is strong in his makeup and shines through in his profile. His 76 lbs start is the proof in the pudding that he would work for the heifer pen. Going to offer the gorgeous yet powerful makeup of the Delia line with that of the Barbra line.

Looking down the line of calving ease prospects, this guy jumps on the train. From his modest start at 77 to today and bringing that stout hip and thick top, he exudes male. From a smaller framed heifer that put in the work this first year.

While a little smaller in stature he makes up for in his calving ease prowess. From a first calver that herself holds a record herself. From the hard working Marion Line that can't do wrong if they tried. This calf's light start into the world paired with the performance the Marion's are known for and they stellar phenotype they possess this calf future is as bright as the Northern lights have been this year.

We bust out the old semen on this one. And it highlights the strengths 63B adds to a maternal gem while housing a performance minded calf. While there is still a lot of time ahead of him this calf is on the track to produce daughters that go the distance with a great demeanor and a willingness to produce.
