ANNUAL PRODUCTION SALE

RED ANGUS • BLACK ANGUS • HYBRID  
OPEN HEIFERS

SATURDAY, MARCH 8, 2025 • 1:00PM  
AT THE FARM • TABER, AB

*Welcome*

Wow, what an exciting time to be in the cattle business! It's great to finally see ranchers turning a profit from their hard work and dedication with prices at an all time high and a strong projection for the future. There is so much optimism in our industry both from those that have been around for a while and from the younger generations who are passionate and excited, ensuring a strong future for our industry.

It is bittersweet that this will be our 18th and final bull sale. As many of you know we made the tough decision to disperse our purebred cow herd in December. A choice made after much consideration, as our girls have moved on to pursue their careers, (both staying in the cattle industry) we felt the time was right for us step back and slow down. We are excited to have more time to explore, visit friends and family, and most importantly watch our grandchild grow. Although this is our final sale rest assured, we still stand behind and guarantee our bulls as we have every year so you can bid and buy with confidence. We look forward to seeing you at the farm for our final bull sale.

This year our spring and summer were filled with preparations for the dispersal sale, but we were still able to fit in some family time as well. In July we hosted a 120 party, celebrating the combined 60th birthday party of Doug, and our good friend and neighbour Tom Machacek. We roasted a pig and got to spend some time with family and friends.

In August we celebrated an even bigger milestone as Grandma Ruth celebrated her 90th birthday. We were so grateful for the many friends and family who came from both near and far to spend the afternoon with her. Her time with so many she loved was even more special as she passed away 3 weeks later. We were so blessed to

have as many years with Ruth as we did and her home cooked meals, welcoming hugs, her willingness to give advice (whether you wanted it or not) and her knitted sweaters will be missed by many.

As with last summer one of our highlights was just getting to be grandparents. We have had so much fun taking Kesler for side by side, or tractor rides, or playing trucks on the living room floor, and are very much looking forward to more days spent the same way.

November brought us some excitement as Stacey and Neil (finally) got engaged! We could not be more excited to celebrate with them this summer.

We look forward to welcoming you to our 18th and final bull sale here at the farm. We feel we have a strong line up of heifer, easy calving and cow bulls to add to your operation.

If unable to make sale day Doug, Chad, Castlerock Marketing and the Perlich crew are available for phone in bids sale day and live bidding on DLMS. Videos will be posted on [cdlandandcattle.com](http://cdlandandcattle.com) once available. Snacks and coffee will be on early to give you an opportunity to carefully view all the livestock before the sale. Lunch will be served at noon with the live sale to commence at 1:00 PM.

Do not hesitate to call any time prior to the sale with any questions or make arrangements to stop in to have a look at the animals and discuss your purchasing needs.

With the cattle market booming it's more important than ever to remember **Quality Counts** now for your future livestock sales.

*Welcome from Castlerock Marketing*

Welcome to the CD Land & Cattle Quality Counts Bull Sale! It's been a privilege working with these good folks who've been committed to supplying a strong set of bulls for a number of years. The mission statement has always been to produce cattle that have performance from a strong, productive set of cows. Mission accomplished! Buyer row at the auction mart will always welcome cattle with growth and

length to them and this set of bulls undoubtedly offer these traits in a sound package.

If you haven't had the opportunity to view the bull pen, consider this your invitation to do so. Should you have any questions regarding the offering feel welcome to reach out to us at Castlerock Marketing.

*See you sale day! Shane Castle*

### SIGHT UNSEEN PURCHASE

If you are unable to attend the sale give Doug, or any of the sale team a call and they will personally go over the bulls and make the recommendations that best suits your program. Your needs will be represented in a very professional and confidential manner. We will make sure you are 100% satisfied with your purchase.

**SALE LOCATION: At the farm**  
1 mile East and 1/4 mile South of Taber, AB  
Search "CD Land & Cattle" on Google Maps

### DELIVERY OPTIONS

**Leaving Bulls at the Farm:** If you are not prepared to take your bull home at sale time, we are more than happy to keep them on feed free of charge up till May 1st. We highly recommend bulls be insured by the purchaser if remaining at the farm as ownership transfers to the buyer at time of sale.

**Delivery of bulls:** We provide free trucking for the bulls up to a 200km radius, beyond that we will work with you to have your bull delivered.

**Delivery of Heifers:** Due to a very limited corral space we require the heifers to be removed as soon as possible. If they cannot be removed sale day, let us know and we will help you make arrangements.

### HEALTH & FERTILITY

All cows are kept on a year-round Crystalyx mineral program to promote breeding on first cycle and to aid calves in holding a bloom at fall time when pastures begin to dry. Then calves are given Crystalyx mineral to aid them for minimum stress at weaning and to help going onto feed. August 23rd bulls were given Pyramid FP5 + Prespense SQ, Vision 8 Somnus and Solmectine. November 26th they had Clean-Up then on January 16 Solmectine again. We bucket feed these calves every day increasing their quietness and easier to handle. All bulls will be tested, fully guaranteed with scrotal measurements and weights available on sale day.

The time has come for the last bull sale from Doug and Cheryl Domolewski, of CD Land & Cattle. It has been my pleasure to work with The Domolewskis as their herd veterinarian over the last 5 years. Quality cattle driven by passionate breeders has risen CD Land & Cattle to be one of the bull sales to mark down on your calendar. The operation integrates a complete herd health program, strengthening the performance and sustainability of their livestock. The breeding herd receives yearly preventative 8-way clostridial, 5-way viral and scour pathogen vaccination focusing on the health and productivity of the cow-calf herd. At birth calves receive an oral vitamin drench along with intranasal viral and bacterial pneumonia immunizations. At spring turn out and weaning, calves are vaccinated with a 5-way viral with Mannheimia Haemolytica along with a 7-way clostridial with Histophilus Somni. This year marks your last opportunity to add CD Land & Cattle genetics to your operation, grab a herd sire for years to come.

## Expected Progeny Differences - EPDs

EPD's are one tool to help and try to predict each bull against its own contemporary group. A note to remember - EPD's PREDICT group average and offspring's performance, they DO NOT predict individual performance or weights. They are a value to help predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed. The EPD numbers will change as more data is collected and are never 100% accurate.

Look at the EPDs, but be sure to view actual birth and weaning weights and come look at the shape and size of the bull. We would like to discuss your needs on your operation, go over the bull and the history behind the bull and help you select the sire that will benefit your operation the greatest.

## Sale Terms & Conditions

**Terms:** Terms of the sale are cash, cheque or e-transfer and all settlements must be made on sale date. The right of the property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

**Disputes:** In case of disputes, bidding will be reopened between all parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**Announcements:** Errors or changes discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over printed matter in the catalogue.

**Certificate of Registry or Recordation:** A certificate of Registry or Recordation, where applicable, duly transferred will be furnished to the buyer for each animal after settlement has been made.

**Liability:** Perlich Bros Auction Market Ltd is acting as agent only in this sale and is not liable in any manner whatsoever for any representations made by the seller. The purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

An attractive bull with some look and style. Out of the reputable 234F cow who was the high selling female out of the dispersal. This moderate, easy-fleshing female raised 5 sons, the first we retained and used ourselves, and the others were highlighted as feature sale bulls. With this female ranking in the top 1% of the breed for calving ease and birth weight, here is a bull to add calving ease to your cow herd.

This bull is out of a cow with a legacy of producing feature sale bulls and females, a maternal pedigree with proven growth and performance. His sire, Topham Formula was purchased as a two-year-old for low birth weight, excellent feet and calving ease, but we have also appreciated the growth and rib shape he has added to his calves. 35M is a bull with that dark red, black headed Formula look and with the added performance and growth from this Selena cow.

The proven heifer bull, 9 Mile Enterprise has over 306 registered progeny and ranks in the top 6% of the breed for calving ease and top 5% for birth weight. Here is a calf safe to use on heifers but is still a deep-ribbed, soggy beef bull. And all of that off of a hard-working first calf heifer. We find the Enterprise calves tend to be easy calving with lots of vigour at birth.

## Hybrid Yearling Bulls

Our hybrid program came about as a response to our commercial customers wanting some cross into their replacements heifers and extra pounds on the steers. We feel the Angus/Simmental cross is a great combination giving you the maternal strength of the Angus with the muscle mass and performance of the Simmental.

## ~~Lot~~ 54 10 OPEN COMMERCIAL HEIFERS

*Cam Et Lynn Morris Open Heifers*

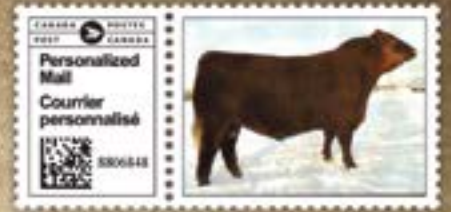

We are proud to offer you the Morris heifers once again, a top class of solid red replacements. Anyone that knows Cam & Lynn know the pride taken in their herd and that reflects in the quality shown here. Calves were given Inforce 3 and First Defence at birth, then Bovishield Gold and 7-Way with Somn at branding and then boosted in the fall along with Ivomec. These are a ranchers dream to buy, top quality, home raised heifers with no visible brand.
