31st Annual

Southern Alberta Round-Up Group

Bull & Female Production Sale

Tuesday, December 17, 2024
1:00pm MST

Foothills Auctioneers Inc. - Stavelly, AB

Welcome from Your Transcon Team

We move into 31 consecutive "Round Up" sales, waters that don't get charted very often. This success doesn't come from a plan dictating a "hard sell" practice but more so from raising good cattle and being your own best (or worst) critic. That has also been combined with a true appreciation of what you can do with proper genetic selection. The ability to exclude any elitism to themselves has garnered a warm feeling from the public.

About three good points come to mind for me in what defines this sale:

- (1). The sound, "responsibly developed" bulls offered to Southern Alberta (& further afield) producers. On behalf of the "Round Up Group", we thank all those great ranching families, including our friends of the Hutterian Brethern who have shown continued loyalty to this sale.
- (2). The introduction of the "Round Up Gals" at the 25th Anniversary Sale and its consistent dedication from the sellers to offer their top females to the public.
- (3). The open minded, responsible mindset to allow other regional breeders an invitation to market within the sale. I've always been impressed that these breeders understand that other breeders will STILL BE SELLING their cattle in your backyard so why wouldn't you just try to include them for the greater good of all? Kudos.

So, within point #3, I would like to welcome two new consignors to this 31st Annual Round Up sale:

I'll start with the good people from Tangle Ridge Ranch at Okotoks. They bring a new dimension to the sale as they operate a later spring calving program to intentionally create extra age bulls for the commercial cattleman. We also get some breed variation too with SM, AN & LM. These are very nice people and I strongly encourage you to go view their bulls ahead of time at the beautiful ranch along the banks of the Sheep River, namely the former and famous Bar Pipe Farms! They are bringing 20'ish big stout bulls that will happily cover a bunch of cows!

We have a long running relationship with the Brown's MCG Simmentals! It's great to have them contributing to the "Round Up Gals" portion of our event. They have a great cowherd that they have been developing for years and are at a point to let some top cut females. They mix up the theme and diversify to the "Gals" with heifer calves, versus bred heifers, off the top end of their respective herd calendar year group, and also add to the Black & Red sector of the sale. I think we have any option you would like at Round Up 31.

I've focused more on the new additions, even though not "newcomers", rather than the establishment, for different reasons, mostly to leave a hospitable welcome and let the core's cattle speak for themselves in the following pages.

Another Round Up mandate all through history is their dedication to hospitality: you'll leave fed and watered to the N'th degree at this one!

Give us a call anytime if you would like to chat about this great set of cattle from some wonderful people. Our well known, honest order buying services are here for you to use too if you wish, it's been a successful service, the sellers here have all used too, for convenience and peace of mind. We'd still prefer you attend on your own of course.

Without conflict,

Jaymes E. (Jay) Good

Sale Day Information

Sale Day Phones:

Jay Good 403-556-5563
Darren Paget 403-323-3985
Glenn Norton 780-542-0634
Cody Coupland 403-877-0799

Sales Headquarters:

Heritage Inn, High River 403-652-3834

Trucking:

Assistance will be provided to arrange delivery of purchases at the buyer's expense.

Bull Wintering Program:

The sellers are happy to winter your new bull(s) free of charge until April 1/25. After this date, a \$4.00/day charge will apply. We will do our best to deliver your bull(s) to you in the spring, within reasonable geographical locations. If commercial trucking is deemed necessary, buyer is responsible for these additional fees and we will do our best to meet the truck. Bull(s) will have passed a semen evaluation prior to delivery/pick up. In the event they don't pass, a full purchase refund will be given to the buyer, with no sale credits forwarded.

Payment Terms:

Due at time of sale. Accepted methods of payment are cash, cheque, e-transfer or wire. Invoices will be sent only to the email address provided. Please advise if not received within 3 days of the sale.

MIKE VERNON CALGARY FLAMES GOALIE JERSEY IN MEMORY OF BRENT CAREY

We lost our friend and a professional of the utmost this past year. Colonel Brent Carey had a sincere passion for his customers' success as much as anyone, he truly cared, and honestly put more responsibility on his own shoulders than need be. He went beyond being their auctioneer to a "sounding board" that grew to what has to be considered mentorship. Myself, I know, I miss those late night phone calls just to talk through some of the challenges that appear at times, and he always had time for me, which I know so many others also enjoyed the same privilege. But if I may focus more directly to his skills as an auctioneer, WHAT A SOUND! His chant and cadence were so identifiable in such a professional and pleasant tone. He was incredibly easy to listen to yet was always in charge. My personal favourite line that Brent used in his chant was, "Tell me where I want to be!", which honestly gets me a bit teary-eyed thinking of it.

We very fittingly have this Mike Vernon "game day worn" Calgary Flames jersey. I say fittingly as (1) Brent, similar to Mike Vernon, was a goalie and (2) we are in his hometown at a sale that he sold and admired the sellers very much. And I'm sure there's many other reasons.

We will sell this at the CONCLUSION of the sale, because if I knew my friend Brent like I think I did, he wouldn't want this to happen before the business of the day was taken care of first.

We, Transcon Livestock Corp., donate this on behalf of the Southern Alberta Round Up Group. Proceeds from the sale of the jersey will be a charity of choice by the Carey Family. To Mrs. Peggy Carey and all the family, we also miss him very much.

Until we meet again, "Tell me where I want to be!"

Okotoks Fleckvieh Group

On behalf of Brian Miller and Ted Shacklady who have become known as the Okotoks Fleckvieh Group we welcome everyone to the 31st Annual Southern Alberta Round Up Group Sale on Tuesday December 17, 2024 at 1:00 pm at Foothills Auctioneers in Stavely Ab. The continued commitment to and the development of Fleckvieh Genetics has enabled us to provide productive genetics to the beef producers of Southern Alberta. We also welcome new consignors MCG Simmentals and Tangle Ridge Ranch to the Southern Alberta Round Up group Sale.

VIRGINIA BREEZER 21F - Sire of Lots 2, 3 and 10

In a world full of change, it's nice to know some things stay the same. For the past 31 years, the Round Up Sale (held each year in December) has committed to bringing a quality offering of Fleckvieh/Simmental genetics that work for both purebred and commercial cattlemen. As one of the original consignors, it is an honor to continue to participate in this sale after all these years. The Round Up has an impressive history of consignors and a track record for launching many other programs that have gone on to do great things in the industry. This year we are pleased to welcome MCG Simmentals and Tangle Ridge Ranch as consignors to our sale.

Once again, we are bringing a select group of bred heifers for your consideration. These front-end females (all but one are born in March) are born and raised in our Foothills ranching conditions. They are the product of cow families that have earned their keep in our herd for decades. Each of our heifers are confirmed safe in calf to their synchronized A.I. date, are double vaccinated, and will have received their first shot of scourguard prior to sale day.

Although I've never eaten before any sale I have ever consigned to, I'm told the prime rib we serve for lunch at the Round-Up is hard to beat! Please accept this as your personal invitation to join us Tuesday, December 17th at Foothills Auctioneers in Stavely, Ab. The sale will also be broadcast live through Transcon Online. Go to www.transconlivestock.com for all the details!

Merry Christmas and Best Wishes to all for a Happy and Healthy New Year!

Polled. 100% Fleckvieh.

Here is a true feature from our 2023 heifer calf crop. Feather Canyon is sired by Silver Lake Jenner 9J (a full brother to Silver Lake Jackson 24J) and we are sure pleased with the A.I. calves he left in our herd. JB CDN Fiesta 1491, the dam of 2306, is likely the unsung hero in our cowherd. She is the dam of JB CDN Stag's Hollow 1741, JB CDN Captain Call 1948, JB CDN Ayatollah 2279, and JB CDN Felicity 1603. She is the maternal grandam of JB CDN Apache Junction 1831, CCRS American Ice, and JB CDN Blackfoot Crossing 2332. Fiesta has cut a wide swath in her lifetime and all from natural production. We have never offered a Fiesta daughter until now, so we consider this a special opportunity. Feather Canyon has size, softness, quiet disposition, and is developing an impeccable udder. She has the look of a great future mama cow, is carrying a rare service to Willow Oaks Intrepid G8, and if anything like her dam, will become a cow you can hang your hat on.

**A.I. bred on April 18/24 to WILLOW OAKS INTREPID G8 (CSA-1453126).
 Confirmed safe.**

JB CDN Gia Bandita 2320 is one of only two Willow Oaks Endicott daughters currently registered in Canada. Her paternal sisters sold very well a few months ago in the Fleckvieh Heritage Sale held in Roland, Oklahoma. Bandita has a beautiful polled skull, is slightly larger in frame and is the picture of femininity. Dark red and stylish, she's easy to find in the pen. The "MRLN Gabi" family tree has been an important bloodline in Fleckvieh circles for over 30 years. Here's your chance to grab a fancy 2023 model. The mating to the highly proven and easy calving Imax should fit like a glove.

A.I. bred on April 18 to ANCHOR D IMAX 250Y (CSA- 753794). Confirmed safe.

LOT 13 - 2337

Polled. 100% Fleckvieh Fullblood.

French Affair is a polled Hyatt daughter with a lot of style and eye appeal, and she packs a lot of muscle and easy fleshing ability on her moderate frame. You won't miss this heifer in the pen with her deep red color and great big goggles. Her dam, JB CON Felda 1824, is one of only a few paternal sisters to JB CON Apache Junction 1831 - and she can be described as a cow who demonstrates "true Fleckvieh type." Take a good look at this solid brood cow prospect as we think she has great potential. The mating to Imax has the promise of an exciting and profitable result.

A.I. bred on April 18 to ANCHOR D IMAX 250Y (CSA-753794). Confirmed safe.

LOT 14 - 2329

Polled. 100% Fleckvieh Fullblood.

Feminine and stylish in appearance, very short-marked and heavily pigmented best describes this Hyatt daughter. We've had good reports on the first Hyatt daughters to calve and Frizzy-Liz carries their same attributes. JB CDN Fritza 2105, the dam of this female, is a typical Imax daughter with her moderate frame and terrific udder - she's one of our favorite young cows. Rugged R Cavill continues to be a "go to" favorite of ours for use on heifers and this mating should get things started in a good way for Frizzy-Liz.

A.I. bred on April 18 to RUGGED R CAVILL (CSA-1339151). Confirmed safe.

LOT 15 - 2313

Horned. 100% Fleckvieh Fullblood.

If you have toured our herd, you might recall seeing JB CDN Galicia 1362, the maternal granddam of JB CDN Gypsy Rose 2313. Galicia would be on our short list as one of the most powerful brood cows to ever graze our pastures. This past fall she moved east to retire at Madge Simmentals where she will enter their progressive E.T. program. These will be our very last Alamo daughters to sell, and it is tough to part with them as they are proving to be home-grown favorites. SRN Bold Arnold 1X on the dam's side of the pedigree adds to the nostalgia of this time-tested Fleckvieh pedigree. Classically bred with an "old school" type, she's easy to look at and easy to like.

A.I. bred on April 18/24 to ANCHOR D IMAX 250Y (CSA-753794). Confirmed safe.

Check the birth date! Balenciaga is the youngster among our sale offering and she is presented for your consideration with a highly proven pedigree. The MAVV Alamo 84G daughters are proving to be the working kind and her potential is further enhanced as she is a direct daughter of Keato Brooklyn 2B, the second oldest cow in our herd. Longevity counts, and JB CDN Balenciaga 2363 has this terrific quality in her genes. Phenotypically, she is moderate in frame, exhibits tremendous length, and as the picture indicates, is dark red and heavily pigmented. Much like her maternal sister who led the sale a few years ago selling to DJ Farms in Ontario, Balenciaga is also very gentle natured.

A.I. bred on April 18 to RUGGED R CAVILL (CSA-1339151). Confirmed safe.

Welcome to the 31st Annual RoundUp Sale. We would like to thank all the past buyers and fellow consignors who have been an integral part of its 31 years of success! This year we are pleased to offer our strongest bull crop yet. Along with some exceptional heifers who are always hard to part ways with. We hope everyone can join us on sale day, or feel free to contact us for a farm tour beforehand.

LOT 24 - 351L

We would like to thank the other members of the Southern Alberta Roundup Group for inviting us to join in the sale with our offering of 3 open heifers. We hope and feel that we have on offer a unique opportunity to purchase some of our top replacement heifers. We have only sold a handful of heifers to other breeders over the years. These heifers will be halter broke, so if you are looking for a show, junior or 4-H project, these girls will fit the bill.

Murray, Cheryl & Grady Brown

 Murray Cell: 403-601-0860
 Cheryl Cell: 403-601-3460
 Email: mcgsimmentals@hotmail.ca

If you are interested in viewing these girls prior to the sale, you are welcome to stop in any time.

HOMO POLLED -NON DILUTER ACTUAL SEPT 1 WW 759 LBS

When choosing heifers to consign to this sale, we were drawn to this heifer for her moderate frame, deep body, smoothness and style. She is such a sweet docile girl. Her dam is a solid young cow that has raised 3 other calves, 2 bulls, both sold to Gordon Turner Farms Ltd, and 1 heifer that was retained in herd. We purchased her sire in the LaBette sale in 2023. His first set of calves have really been impressive. Mostly all heifer calves, with both calving ease and explosive growth.

HOMO POLLED - NON DILUTER ACTUAL SEPT 1 WW 725 LBS

When Jay came to look at our heifer calves, this was one that caught his attention, and for very good reason. She is exactly the type of heifer that we look for when we put together our replacements. She is long with a huge spring of rib and a lot of femininity. Her mother is a really quiet, easy doing young cow. She is the type you would be happy if your whole herd was just like her. We purchased 74M's sire at the Labette's sale in 2022. He is a calving ease bull that is leaving his stamp of thickness and wide toplines.

IPU 116G TOP TIER 26J - Sire of Lots 26 and 27

**HOMO POLLED/ HETRO BLACK
ACTUAL SEP 1 WW 773 LBS**

We purchased 102M's dam at the 2022 Western Harvest sale from Beechinor Bros. This heifer is one that we would have really rather kept at home in our own herd, but when we committed to this sale, we assured Jay and the other members of the Roundup group, we would consign our very best. She has been a favorite since she was born. Just like her mother, she is super docile. She is also very much like her mother in her makeup as well. Sired by our super wide Top Tier son, this heifer will be an asset in any herd. This heifer and our other consignment 74M were the only 2 heifer calves sired by IPU 26J, as we had over 90% bull calves out of him. All which makes this even harder to let go of these 2 heifers. Hopefully we will see more heifer calves out of him in the spring.

Terms and Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2.5% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE - Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS - There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS - All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales anagement or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYOS AND SEMEN - Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.

ANCHOR D OUTLOOK - Sire of Lots 49 and 50

On behalf of Scott Land & Cattle we welcome you to the 2024 Southern Alberta Round Up Sale.

Our operation is located just east of Arrowwood Alberta and consists of 150 commercial cows and 35 purebred Simmental cows as well as 2200 acres of crop land. Through AI and Embryo transfer work we are able to utilize some of the best genetics in the industry. Our bull calves graze in the buffalo hills grassland area which is a great place to watch them develop and turn into great herdsires. The bulls calves are raised along side their dams without creep until late august where they then go onto a high oat and high roughage ration to ensure these bulls grow and develop to their maximum potential and will continue to perform for years to come.

We invite you to come tour through the bulls and the cow herd anytime before the sale. We look forward to seeing all of you at this years sale!

1M- HOMO POLLED HETERO BLACK
3M- HOMO POLLED HOMO BLACK

A pair of full sibling black bulls that truly are standouts. These bulls are the result of a NYR embryo purchase from Westbrook Ventures. We've always admired the Brooke cow family and when the opportunity arose to invest we jumped on it. RF Caliber on the top side of these pedigrees was just the icing on the cake. No Simmental bull has bred like Caliber has over the last few years. Bulls that are high performing, impeccable build with an awesome foot while still siring females that are maternal, functional and very promising as we wait for them to get into production. 3M being the bigger framed and stretchy one of the pair and 1M being the more moderate dense made of the two bulls. Check out the EPDs on these bulls with 1M ranking in the top 10% in both WW and YW and still staying in the top 15% for CE. 3M ranking in the top 15% for both WW and YW while still in the top 30% for CE and BW.

We would like to retain some in herd use semen on these bulls at our expense and buyers convenience.

HOMO POLLED HOMO BLACK

Matrix 5M is a bull that brings a pile of performance to the table. Another Caliber son that is a big soft middled bull with a big top carrying down into a powerful hip. To say that Caliber has worked well for us is an understatement. Out of a no miss cow for us that brought a bull to the 2023 round up sale and has multiple other progeny working across AB. 5M was our highest performing bull at weaning time and has not skipped a beat since. Look to this powerhouse to really add some extra pounds at weaning and will sire some very high capacity replacement females. Be sure to find this bulls video or better yet come see him in person to really appreciate what he has to offer.

LOT 53 - 5M

LOT 54 - 9M

HOMO POLLED DILUTOR FREE

Here's a super dark red son by Next Century that really hits you with a herd bull look. Studying this guy through the summer and into the fall he has always hit us with a herdsire look. Masculine head with great shape to his crest while still tying it into a nice smooth shoulder. His dam came from Flying W Stock Farm in SK and is really proving her worth in the first few years of production. 9M comes with a comfortable 86lb BW while still weaning at 810lbs on August 31st! Super long spined, square made bull that has ample shape. Excellent set of feet and legs under this bull that will stand the test of time.

Here's a Tycoon son that comes with some extra frame size and growth. Powerful, big ribbed and stout made while still being upheaded and attractive through his front third. His National dam came from the highly respected Cityview program and has done an excellent job for us. Her first calf came a heifer calf which was retained and is turning into an excellent female that is dropping a very nice udder just like her mother. Our second highest bull at weaning time that tipped the scale at 910lbs on August 31st! Big time performance bull here ranking in the top 5% for both WW and YW.

One of our younger bull calves in the offering but one that really brings it all together in a nice dark red package. Very balanced look but still plenty of shape and power. The Betts/Tycoon combination is one that has really worked over the last few years. He ranks in the top 10% for both WW and YW EPDs! Dam of this bull was purchased from the CityView Simmentals program and really has been a great addition to our herd. Moderate framed great uddered female that has raised some of our top end bulls and females in just the first 2 years of production. The great disposition on these Betts progeny is as consistent as we have ever seen.

Another great blaze faced Next Century son here that comes to us as the youngest bull in our offering. Only a Feb 12th birthdate which puts him behind of some of our older bulls that are early Januarys. This young bull really hits you from the profile with a great look. Square build, strong top and a great rib shape. His fullblood mother raised this bull calf this year at 14 years of age! She is the foundation cow to most of our red program leaving us with multiple females that were retained over the years. Given the cows age her milk production has started to decline which lead to a smaller WW then she usually gives us. Typically she raises our heavyweight calves year after year. So rest assured the genetics are there to raise some high performing calves.

LOT 57 - 23M

Welcome to the 31st Annual Southern Alberta Round-Up Group Sale. On behalf of myself, my daughter and the rest of the family we are thrilled to be a new consigner in this long-established event! We are very excited about the group of long yearling bulls that we will be bringing to Stavely this December. We will be offering 3 registered breeds, primarily Simmental, with the addition of a few Black Angus and Limousin bulls. Over the next few pages we hope that you will find a bull that will be ideally matched for your cow herd's specific needs, while keeping your goals in mind. We are confident in our AI program and are constantly striving to offer the best genetics that Canada and the US have to offer.

Our calves are born in May & June and they then spend the summer out on pasture alongside their dams. After weaning, our bull calves are separated from the heifer calves and they are all started on a small amount of grower pellet with free-choice forage for the winter. In the spring the young bulls are turned back onto pasture while being supplemented with a low-starch pellet, before they head to Highway 21 Feeders for a 100 day feed efficiency test. (We have all of the data from this test, please feel free to contact us for the results) We always allow our bulls and heifers to grow and develop without being pushed along too quickly, which ensures longevity and soundness for years to come.

Tangle Ridge Ranch was formerly known as the Bar Pipe Hereford Ranch. We are located just five minutes west of Okotoks. We are always available by phone if you have any questions about the group of bulls being offered in this sale. Give us a call if you would like to come and see them in person.

We look forward to meeting you soon, and hope to see you at the sale!

Sincerely,
Brenda & Brekell Otto

LOT 86 - 44M

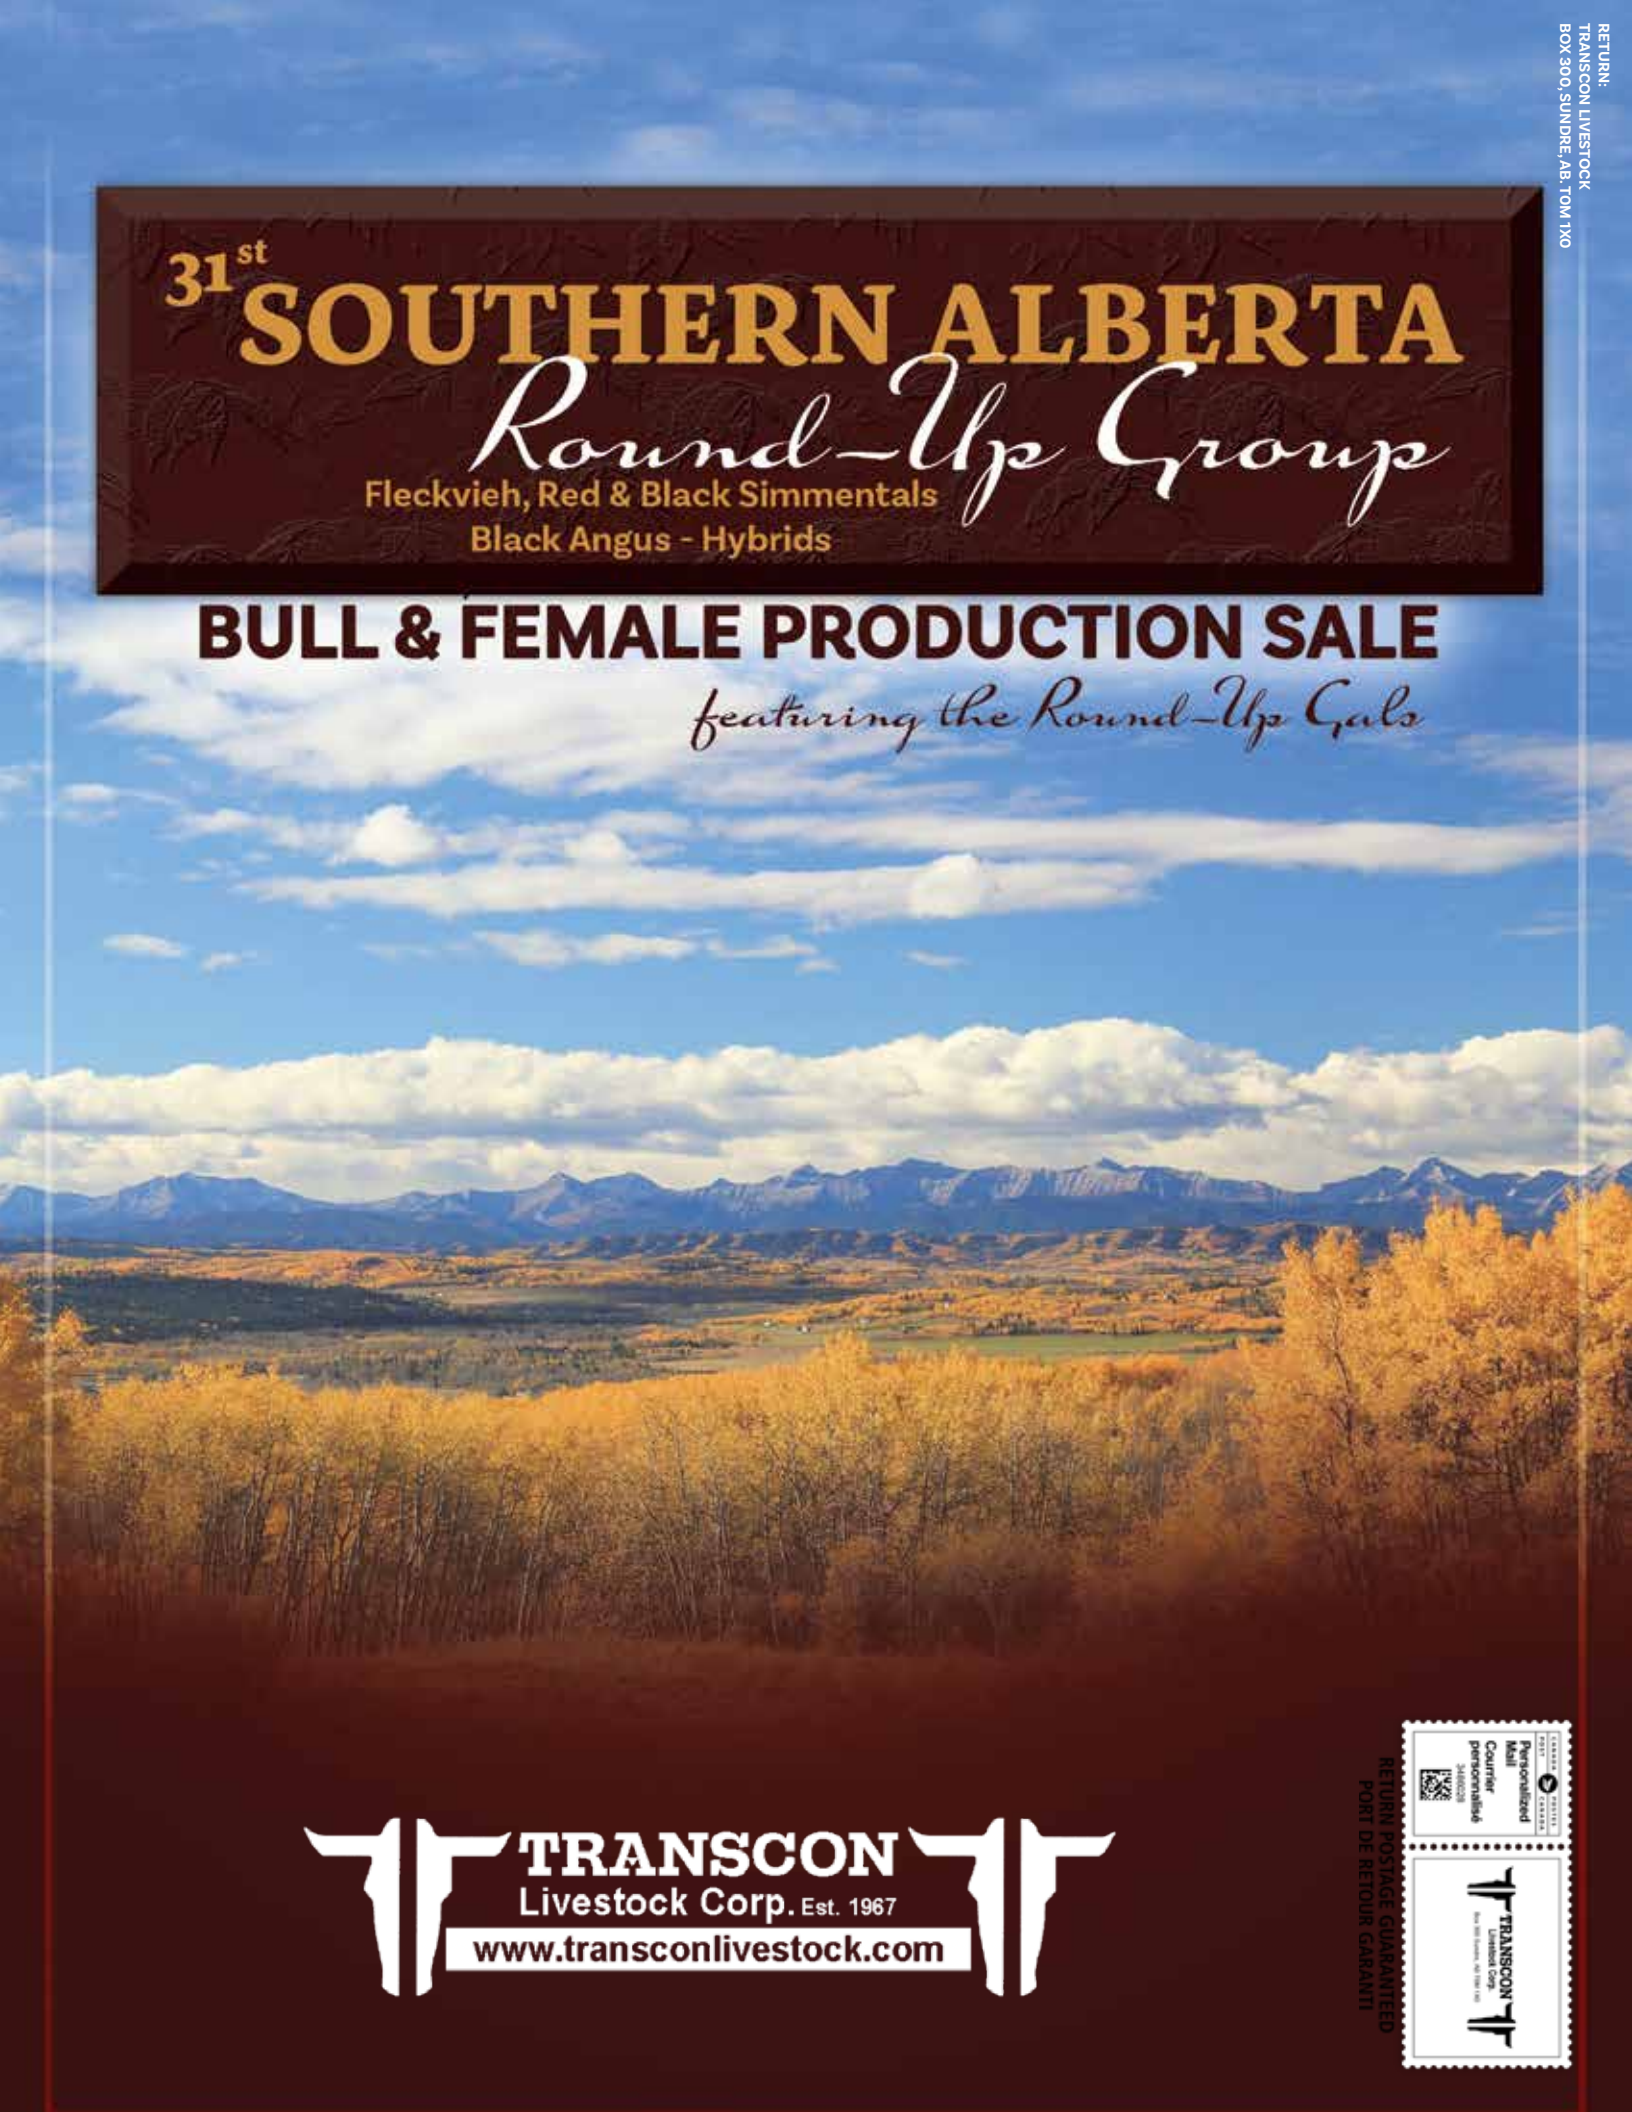

This black blaze faced bull is very well put together and thick throughout. He was our heaviest at weaning and his dam Rendezvous Shamwow 44A always weans the good ones! He will also be the last bull calf out of our late herd sire MTV 6B.

MTV CORVIAR 6B at nine years of age - Sire of Lot 85 and 86

31st SOUTHERN ALBERTA
Round-Up Group
 Fleckvieh, Red & Black Simmentals
